## انفجار فى الفضاء

# BLAST INTO SPACE

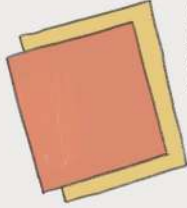

اتبع التعليمات وأطلق الصاروخ الخاص بك من المواد المعاد تدويرها.

Follow the instructions and launch your very own rocket with recycled material.

### YOU WILL NEED

1 empty toilet paper roll

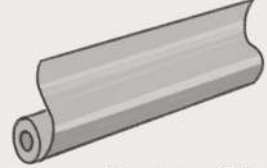

Orange, yellow construction/chart paper

Glue

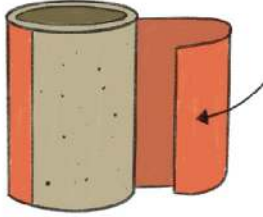

Scissors

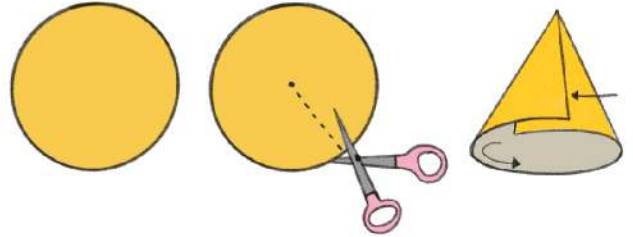

Aluminium foil

### DIRECTIONS

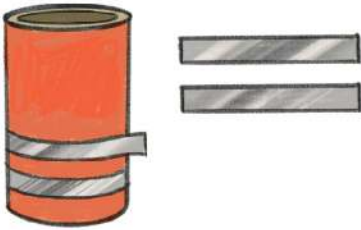

1. Glue a piece of orange chart paper around the toilet paper roll.

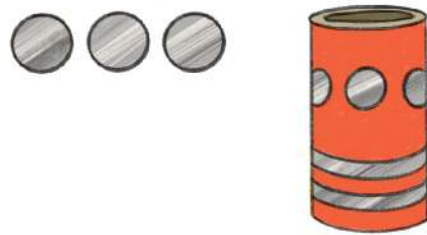

2. Cut a circle out of yellow paper and cut one slit to the middle. Take the yellow circle and roll it into a cone, gluing it secure.

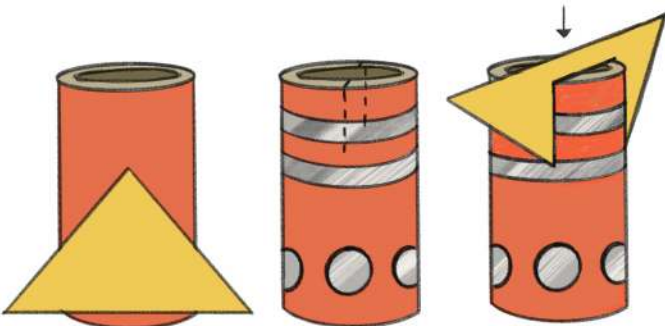

3. Cut two strips of tin-foil and glue them on the bottom of the rocket.

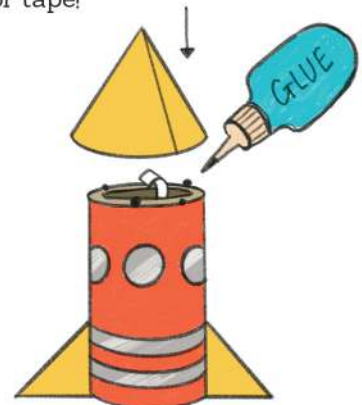

4. Then cut out three small aluminium foil circles and glue them towards the top.

5. Then cut a yellow triangle wider than the toilet paper tube. Cut two slits on the bottom of the toilet paper tube on opposite sides. The yellow paper will just slide into them. After that it should be able to stand up by itself.

6. Glue the yellow paper cone secure on the top. The trickiest part about this rocket is getting the top to stay on. You will need a lot of glue or tape!
